Ameristar, the world's largest manufacturer of architectural metal fence systems, inventories a wide range of affordable fence sizes, materials, styles and colors for perimeter applications around schools. Our Aegis® steel and Echelon™ aluminum ornamental picket fences incorporate the unique ForeRunner™ 'invisible' fastening system, combining superior strength with a clean fastener-free profile on both sides. Ameristar Pro-Fusion™ welded ornamental picket fence ensures a rigid, yet virtually invisible, structural connection at each picket-to-rail intersection with no exposed welds, no uneven weld contours, and no unsightly weld spatter. Our maintenance-free PermaCoat® finish ensures continued beauty for years to come.

*Long-lasting fixtures +  
less maintenance =  
better value*

## Evaluate the equation: Bradley is your best choice.

Has your school been putting off necessary repairs and maintenance? Now is the time to take advantage of funds made available for these types of projects. Update your restrooms with products that save water and energy, are easy to install and will stand up to heavy use. For school washrooms and locker rooms, Bradley leads the industry in water- and space- saving products that are also long-lasting, vandal resistant and low maintenance.

From light-powered handwashing fixtures, a variety of shower options and washfountains to washroom accessories and plastic lockers and partitions, it's easy to calculate your school's best choice: Bradley.

**"Our gym floors are the most expensive floors in our schools, so we have to be confident in the products we use. The Buckeye Reflections Wood Floor Program is a complete program, not just products, and the training is phenomenal! Now we can do our gym floors in-house and save money, and still get results like this!"**

# OPPORTUNITY

The recently passed ARRA has the government investing billions of dollars towards modernizing schools and increasing energy efficiency. A roof offers the single-largest opportunity to increase your school's energy efficiency and lower its carbon footprint. Carlisle has the roofing, rooftop solar power and daylighting solutions to help you save money for years to come. Can you afford to be uneducated on the potential energy-savings and energy production that can be achieved with a high-performance roof system?

# Designing a new school? Think metal – even better, think Ceko!

There is a litany of reasons why you should consider using a metal building system for your next school building:

- ✓ a standing seam roof with long life and low maintenance
- ✓ economy versus conventional construction
- ✓ flexibility and ease of expansion
- ✓ speed, and more

There is one reason you should select Ceko Building Systems as your primary design:

## ✓ No limits! Period!

School administrators are telling us of their satisfaction – their delight – in the use of our building systems. Give us the opportunity to introduce you to Ceko's "no limits" design freedom. You'll be pleased – and so will your clients.
